A close-up photograph of a musician with long, wavy, light-colored hair playing an electric guitar. The musician is wearing a black leather vest over a black t-shirt. The guitar is a dark-colored electric guitar with a light-colored pickguard. The background is a bright, out-of-focus blue light. A yellow rectangular box is overlaid on the left side of the image, containing the text 'ELECTRIC GUITAR STRINGS'.

# ELECTRIC GUITAR STRINGS

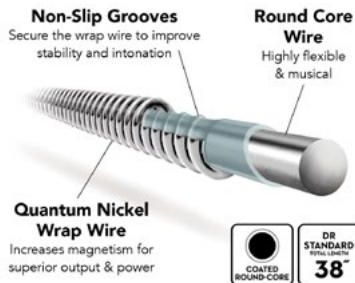

## VERITAS™ COATED CORE TECHNOLOGY

Maintain their tone, tuning stability and intonation thanks to our Coated Core Technology™, a process of coating the round core wire, which locks the wrap wire in place and extends string life by protecting the core from corrosion. A Quantum Nickel™ wrap wire delivers more power, brighter tone and greater flexibility and responsiveness. All VERITAS™ sets include both standard plain steel AND Xenon Power-Plain™ strings, which have increased output to balance with the wound strings.

## PURE BLUES™ PURE NICKEL

Constructed with a pure nickel wrap wire on a round core wire to produce a distinctive warm and balanced sound with rich overtones and a vintage vibe. They create the unmistakable tone and feel of classic American rock and blues with chords that ring out sweet and round, while leads have more punchiness and sustain. They feel smooth and playable with a remarkably responsive touch.

ATTACK	

TITE-FIT™ Electric Guitar Strings utilize a nickel-plated steel wrap wire wound on a round core wire to produce a fatter sound. This classic construction makes TITE-FIT™ a great all-around string that works for a range of styles and genres, including Rock, Blues, Metal and Jazz. The use of the finest core and wrap-wire materials ensure this classic design meets modern performance standards.

## DDT™ DROP DOWN TUNING

DDT™ Drop Down Tuning Electric Guitar Strings maintain their intonation at lower tunings thanks to Accurate Core Technology™ (ACT™), a coated hexagonal core wire that locks the nickel-plated steel wrap wire in place to increase stability and maintains intonation at any tension. DDTs go right into tune and deliver clean and clear notes. Change tunings and be surprised how DDT's lock right in without constant adjustment.

DDT-10	Medium 10-46, Set	11.-

**Non-Slip Grooves**  
Secure the wrap wire to improve stability and intonation

**Hex Core Wire**  
For precision & attack

## HI-BEAM™ NICKEL PLATED

HI-BEAM™ Electric Guitar Strings feature a nickel-plated steel wrap wound on a hexagonal core wire, delivering a bright tone with great versatility that can stretch across a wide array of musical genres. They're ideal for players looking for a bit more brightness without losing a solid tone. They tune up quickly without a lot of break-in and then stay put.

**Hex Core Wire**  
For precision & attack

## DRAGON SKIN™ CLEAR COATED

DRAGON SKIN™ Electric Guitar Strings feature DR's K3™ clear coating on a nickel-plated steel wrap wire to prevent dirt and perspiration from reaching the hexagonal core wire, preventing corrosion. The K3™ coating, which is applied to all strings in the set, is ultra-hard and doesn't dampen vibration like softer coatings can. The strings have more projection, fewer unwanted overtones, greater clarity and articulation than uncoated strings.

DSE-9	Light 9-42, Set	15.-
DSE-9/46	Light to Medium 9-46, Set	15.-

## HI-VOLTAGE™ DIMEBAG DARRELL NICKEL PLATED

HI-VOLTAGE™ Electric Guitar Strings are the signature strings played by the late metal icon Dimebag Darrell. They feature a hexagonal core wire and nickel-plated steel wrap wire treated with STRINGLIFE™, a molecular bonding liquid polymer that protects them from corrosive elements. As Darrell used to say, "They're great for everything, from big ol' string bends, to huge whammy bar dives, perfect for blood curdling harmonic screams and just straight out heavy chunky riffin'."

DBG-9	Light 9-42, Set	15.-

DBG-10/52	Medium to Heavy 10-52, Set	15.-
DBG-11	Heavy 11-50, Set	15.-

## LEGEND™ POLISHED FLATWOUND

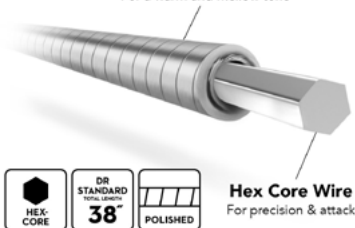

LEGEND™ Polished Flatwound Electric Guitar Strings have long been a jazz standard due to their warm, mellow tone, rounded and full low without losing punch and attack. The feel of the polished stainless-steel wrap wire is smooth and comfortable under the fingers, while the hexagonal core wire provides great flexibility.

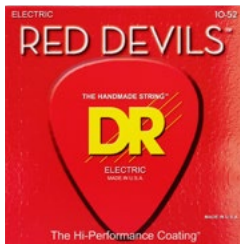

FL-11	Light 9-42, Set	25.-
FL-12	Medium 10-46, Set	25.-

## RED DEVILS™ RED COLORED

RED DEVILS™ Red Colored Electric Guitar Strings aren't for the timid. With hexagonal core wires and silver-plated nickel-plated steel wrap wires, their loud and aggressive sound complements their vibrant color. All strings in the set are coated with a red-colored version of DR's proprietary K3™ coating, which delivers longevity, more projection, fewer unwanted overtones, and outstanding clarity and articulation.

## VERITAS™ COATED CORE TECHNOLOGY

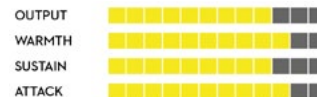

VERITAS™ Acoustic Guitar Strings maintain their tone, tuning stability and intonation thanks to our Coated Core Technology™, a process of coating the round core wire, which locks the wrap wire in place and extends string life by protecting the core from corrosion. A phosphor bronze wrap wire delivers a traditionally bright tone and natural feel. All VERITAS™ sets include both standard plain steel AND Xenon Power-Plain™ strings, which have increased output to balance with the wound strings.

VTA-13	Medium 13-56, Set	15.-

## RARE™ PHOSPHOR BRONZE

RARE™ Acoustic Guitar Strings utilize a phosphor bronze wrap wire over a hexagonal high-carbon steel core. The result is warm, bright and balanced tone with an overall fatter and louder sound with a deep bottom end. Acoustic guitars of all types seem to benefit from a distinct improvement in tone, depth, and sustain.

## SUNBEAM™ PHOSPHOR BRONZE

SUNBEAM™ Acoustic Guitar Strings utilize a phosphor bronze wrap wound on a round high-carbon steel core. The use of the round core increases flexibility and produces a long sustain that fades slowly and evenly without any sudden drop-offs. SUNBEAM™ phosphor bronze strings are musically bright and rich sounding.

## HI-BEAM™ STAINLESS STEEL

HI-BEAM™ Bass Strings blend a stainless-steel wrap wire wound on a round core to produce great flexibility and musicality without harsh brightness. Their flexibility makes them easier on fingers and on frets. They are renowned for unusually long life, consistency and string-to-string balance. HI-BEAMS are the string to choose for a bright and solid tone with great punch and ease of playing.

## PURE BLUES™ QUANTUM NICKEL™

PURE BLUES™ Bass Strings utilize a Quantum Nickel™ wrap wire, which marries the warm tone of nickel with the brightness and edge of stainless steel for a rich and tonally balanced string that is perfect for players who demand versatility. A round core increases string flexibility to produce an unsurpassed feel. Whether you play fingerstyle, with a pick, or slap, your bass will come alive with a full bottom, colorful mids, and bright articulate highs.

--------	--------------------	------

**Quantum Nickel**  
DR's new alloy combines the smooth feel of pure nickel with the punch and brightness of stainless steel.

#### Round Core Wire

Round core strings ensure consistent contact with the wrap wire. "These strings have more sustain and flexibility," says Victor Wooten.

## FAT-BEAM™ STAINLESS STEEL

FAT-BEAM™ Bass Strings blend the finest American stainless-steel wrap wire on a round core, but are made with a slower and high compression winding process to produce more pronounced mids, bright highs and a super-fat bottom. They produce an overall fuller sound with a solid punch when it's needed.

## LO-RIDER™ STAINLESS STEEL

LO-RIDER™ Bass Strings are for players who are into slapping, popping and tapping. With a stainless-steel wrap wire on a hexagonal core, they deliver a combination of high end, depth and a bit of stiffness that makes harmonics very accurate. Great consistency and superior string-to-string balance are hallmarks of all DR strings, but LO-RIDER™ strings provides more depth of tone and are a bit stiffer than HI-BEAMS™.

## NICKEL LO-RIDER™ NICKEL PLATED

NICKEL LO-RIDER™ Bass Strings are specifically designed for a softer feel and a traditional warm nickel sound. With nickel-plated steel wound on a hexagonal core wire, NICKEL LO-RIDER™ bass strings have an even, long lasting and loud tone with a strong midrange growl. They are an excellent string for fretless basses and funk.

For a softer feel and warmer tone

#### Hex Core Wire

Loud tone with strong mid-range

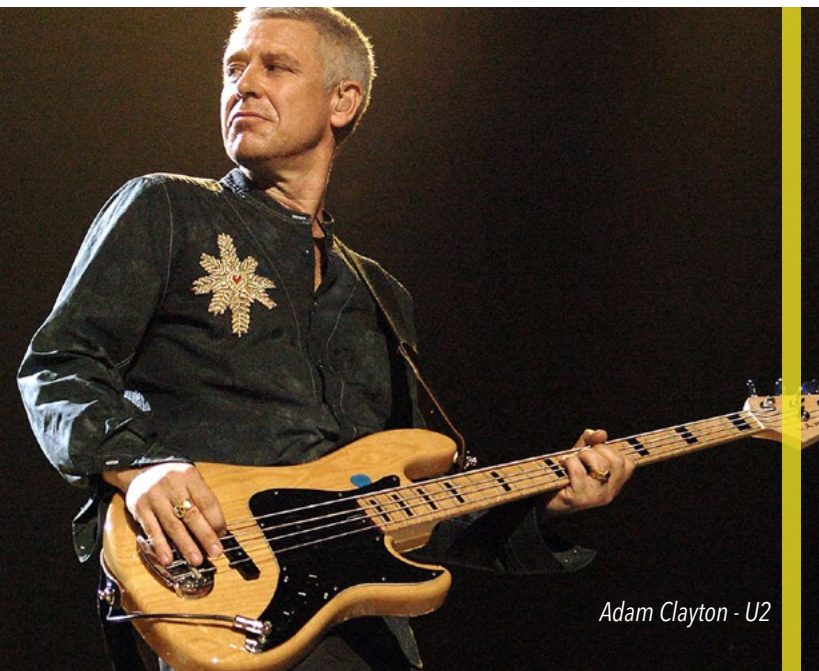

## SUNBEAM™ NICKEL PLATED

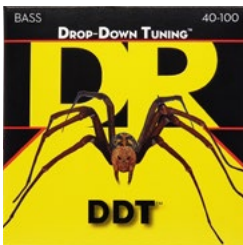

SUNBEAMS™ Bass Strings are the next generation of nickel-plated bass strings wound on round core wire. They offer the combination of brightness, warmth and flexibility desired by fretless bass players and those looking for a traditional sound. Their round core construction with nickel-plated steel wrap wire produce warmth, a soft feel and increased response to pickups due to their increased magnetic content.

## DDT™ DROP DOWN TUNING

DDT™ Drop Down Tuning Bass Strings go right into tune and lock in thanks to Accurate Core Technology™ (ACT™), a coated hexagonal core wire that locks the stainless-steel wrap wire in place to increase stability and maintain intonation at any tension. Now you can deliver notes at lower pitch that are clean, clear and in tune. Change tunings and DDT's lock right in and require little to no adjustment between play.

## LEGEND™ POLISHED FLATWOUND STAINLESS STEEL

LEGEND™ Polished Flatwound Bass Strings have long been a jazz, R&B, funk and reggae musical standard due to their warm, mellow tone, rounded low end and a dark and defined thump. The feel of the polished stainless-steel wrap wire is smooth and comfortable under the fingers while the round core wire provides great flexibility.

Highly flexible & musical

## DRAGON SKIN™ CLEAR COATED

DRAGON SKIN™ Bass Strings feature DR's K3™ clear coating on the stainless-steel wrap wire to prevent dirt and perspiration from reaching the round core wire, preventing corrosion. The proprietary K3™ coating, which is applied to all strings in the set, is ultra-hard and doesn't dampen vibration like softer coatings do. The strings have more projection, fewer unwanted overtones, greater clarity and articulation than uncoated strings.

## LONG NECKS™ TAPERED STAINLESS STEEL

LONG NECKS™ Tapered Bass Strings are ideal for contemporary bassists, as well as luthiers, who demand a tapered string to enable modern bass playing techniques. LONG NECKS™ have increased stability in the lower registers which produces excellent clarity and definition. These strings employ a single wrap wire around the hexagonal core wire where the string passes over the bridge.

Bootsy Collins

## BOOTZILLAS™ CLEAR COATED STAINLESS STEEL

BOOTZILLAS™ Bass Strings, the signature strings of the legendary Bootsy Collins, use a unique stainless-steel wrap wire clear coated with DR's proprietary K3™ coating that extends life by protecting against damaging substances like perspiration, dirt, humidity and hand acids. Wound on a hexagonal core wire, the strings produce the distinct "crunchy" tone for which the interplanetary funk-master is known.

## RARE™ PHOSPHOR BRONZE ACOUSTIC BASS

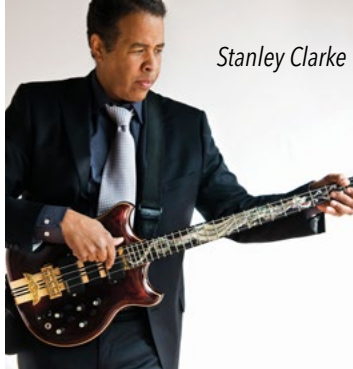

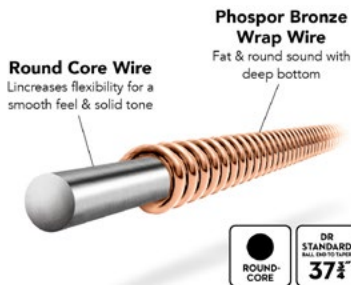

RARE™ Acoustic Bass Strings are constructed with a phosphor bronze wrap wire wound on a round core, delivering a fatter, louder sound and a deeper bottom. They combine winding techniques developed for DR's long-lasting HI-BEAM™ bass strings and DR's rich, full-sustaining RARE™ phosphor bronze acoustic guitar strings. Acoustic players will find a distinct improvement in tone, depth and sustain.

# OTHER INSTRUMENT STRINGS

## CLASSICAL GUITAR STRINGS

DR's CLASSICAL NYLON® Strings feature silver-plated copper windings on Nylon® cores to product punchy bright, and clear trebles and deep & booming bass tones. They feel and sound soft under the fingers, but brighten significantly with a pick.

RNS-PLUS	Medium Tension 28-44, Set	13.-
NSA	Hard Tension 28-44, Set	13.-

## ORIGINAL BANJO STRINGS

DR ORIGINAL Banjo Strings achieve a new standard of tone, durability and playability. The 5-string set offers 1 wound string and 4 plain steel strings, with the wound string using nickel-plated steel wound over a high-carbon hexagonal core wire. The entire set is designed for brightness that makes a player stand out in any picking circle.

BA-10	Tenor 10-14-23-31, Set	9.-
BA5-10	5 String 10-12-15-23-10, Set	10.-

## MOONBEAM™ UKULELE STRINGS

MOONBEAM™ Ukulele Strings are made from genuine, high grade, modern fluorocarbon last longer and holds tune better than regular nylon. Play loud, play long and enjoy strumming and picking and hearing all the musical output your ukulele is capable of. Made for professional and amateur enjoyment.

UFSC	Soprano/Concert Ukulele Strings, Set	11.-
UFT	Tenor Ukulele Strings, Set	11.-

## MULTI-COLOR™ UKULELE STRINGS

MULTI-COLOR™ Ukulele Strings include super bright colors designed for clear, bright and musical sound. They make learning and teaching ukulele MUCH easier and more fun. 4 strings, 4 colors...green, red, yellow, blue.

UMCSC	Soprano/Concert Ukulele Strings, Set	11.-
-------	--------------------------------------	------

## RARE™ MANDOLIN STRINGS

RARE™ Mandolin Strings are designed to last longer than typical mandolin strings. They have a tone that will surprise and please the experienced player. Crisp and warm, DR Rare phosphor mandolin strings stand out whether you are playing in a group or as a featured soloist.

MD-10	Light 10-36, Set	13.-
MD-11	Medium 11-40, Set	13.-
MD-12	Heavy 12-41, Set	13.-

## DRAGON SKIN™ MANDOLIN STRINGS

DRAGON SKIN™ Mandolin Strings feature a hexagonal core and phosphor bronze wrap wire. The addition of DR's proprietary K3™ coating on both the wound strings AND the brass-plated Xenon™ treble strings extend string life by protecting the string from corrosive elements. The coating also increases warmth and volume, reduces unwanted overtones, and improves clarity and articulation.

DSM-10	Light 10-36, Set	18.-
DSM-11	Medium 11-40, Set	18.-

## PUERTO RICAN CUATRO STRINGS CLEAR COATED

DR's Puerto Rican CUATRO Strings are a 10-string set using silver-plated copper winding over a round high-carbon steel core, delivering a traditionally bright tone, balance and response that's ideal for both chordal and tremelo play.

CUATRO-PR	Puerto Rican Cuatro Guitar Strings, Set	21.-

# ACCESSORIES

## STRINGLIFE - LIQUID POLYMER

DR Stringlife™ is not just another string cleaner. It cleans the strings, takes off finger oil and acids and leaves a protection layer that keeps the strings from interacting with oxygen and sweat.

Apply to new strings for longer lasting tone and feel. For best life-extending results, clean and protect your strings after playing.

Apply to old strings for a clean feel and improved sound.

With its molecular bonding capabilities, Stringlife™ bonds to strings by causing the positive charge of electrons in your strings to attract to the negative charged polymer and forms a barrier between strings and the elements (like acid, dirt and grime) that steal their life.

Treat your strings for longer life - with DR Stringlife

Stringlife	STRINGLIFE Liquid Polymer (2oz, 60ml)	15.-
