Deluxe Jack Cup for Tele, gold. Held in place by 2 angled screws screwed into the wood. Metric jack thread.

**EL02M**

Mini Toggle Switch, on/on, chrome. Compact toggle switch with 2 x 3 solder pins. Usable as a pickup on/off switch, a coil tap switch or similar.

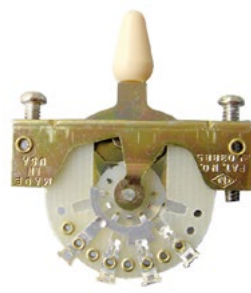

Fender-style
switches &
knobs
.....

**EL3PL**

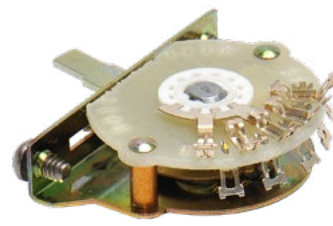

Mini Toggle Switch, 3-way. 2 layers, circuit board construction.

**EL5PL**

Economy 5-Way Switch, 5-way. 2 layers, circuit board construction.

**US003**

3-Way Switch for Strat/Tele. The solid classic! As used on countless older Fender guitars. 2 switching layers with 1+3 contacts each.

**US004**

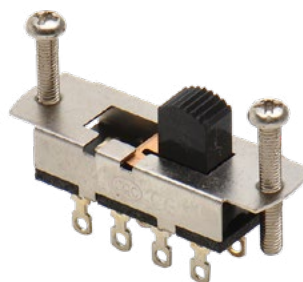

4-Way Switch for Strat/Tele. Conventional spring-contact constr. The 4 position may be used in a Telecaster for additionally connecting both pickups in series.

**US2X3**

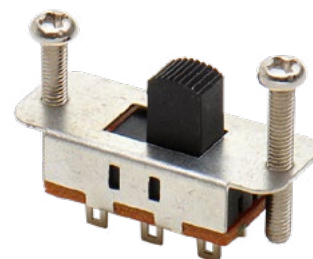

«Double Wafer» 3-Way Switch, 4 x 3-Way. Switches simultaneously on 4 layers, so you have two times the contacts of a normal switch.

**US2X5**

«Double Wafer» 5-Way Switch, 4 x 5-Way. Switches simultaneously on 4 layers, so you have two times the contacts of a normal switch.

**WDE15**

Switch for Mustang. 3 positions, 8 pins. Window for slider: 20 x 6mm. Distance of screws middle to middle: 35,5mm.

**WDE16**

Switch for Jaguar + Jazzmaster. 2 positions, 6 pins

**EKT3B**

Switch Tip for Tele, black. Wide slot, for US switches.

**EKT3C**

Switch Tip for Tele, chrome. Wide slot, for US switches.

**ELK1B**

Tip for «F-style» Switch, black. Narrow slot, fits many Japanese switches.

**ELK1W**

Tip for «F-style» Switch, white. Narrow slot, fits many Japanese switches.

**ELK1K**

Tip for «F-style» Switch, cream. Narrow slot, fits many Japanese switches.

**ELK3B**

Tip for «F-style» Switch, black. Wide slot, for «US» switches.

**ELK3W**

Tip for «F-style» Switch, white. Wide slot, for «US» switches.

**ELK3K**

Tip for «F-style» Switch, cream. Wide slot, for «US» switches.

**ELT1B**

Knob for Tele switch, black. Narrow slot, for Japanese switches.

**ELT1W**

Knob for Tele switch, white. Narrow slot, for Japanese switches.

**ELT1K**

Knob for Tele switch, cream. Narrow slot, for Japanese switches.

**KBGLC**

Lever Switch Knob, for toggle switch, chrome. Brass knob for Gibson-style toggle switches. 12mmØ x 14.5mm, M4 inside thread.

**KBGLN**

Lever Switch Knob, for toggle switch, nickel. Brass knob for Gibson-style toggle switches. 12mmØ x 14.5mm, M4 inside thread.

**KBGLG**

Lever Switch Knob, for toggle switch, gold. Brass knob for Gibson-style toggle switches. 12mmØ x 14.5mm, M4 inside thread.

**KBGSC**

Lever Switch Knob, for lever switch, chrome. Brass knob for Fender-Style pickup switches. 12mmØ x 14.5mm, hole 4.9mm, M4 hex screw.

**KBGSN**

Lever Switch Knob, for lever switch, nickel. Brass knob for Fender-Style pickup switches. 12mmØ x 14.5mm, hole 4.9mm, M4 hex screw.

**KBGSG**

Lever Switch Knob, for lever switch, gold. Brass knob for Fender-Style pickup switches. 12mmØ x 14.5mm, hole 4.9mm, M4 hex screw.

Toggle Switches,
Mini Switches,
Tips

EL002

Deluxe Toggle Switch, nickel. Gold-Contacts!

**EL005**

Rotary Switch, 5 positions, 4 switching layers. Measures without shaft: 30 x 34 x 37.5 mm (H x W x D). Knurled Shaft. Drill hole: 9mm.

**EL011**

Mini Switch with flat lever, on/on, black. 6 pins, on/on, for coil splitting, out of phase, serial/parallel wiring and the likes.

**EL012**

Mini Switch with flat lever, 2x on/off/on, black. 6 pins, center position OFF. For "on/off", splitting, out of phase, in series / parallel.

**EL013**

Mini Switch with flat lever, 2x on/on/on, black. 6 pins, can be used as a selector switch for 2 pickups.

**EL02C**

Economy Toggle Switch, nickel.

**EL02G**

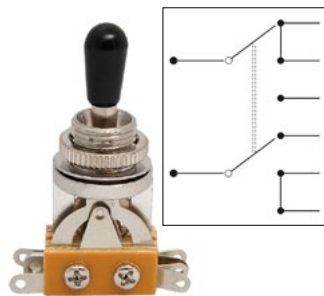

Economy Toggle Switch, gold. Visible areas completely gold plated.

**EL04D**

Rotary Switch, 4 pos., 3 switching layers. Used on Dues. «Gran Royale», «Gran Majesto» & «Paloma». Measures without shaft: 18 x 31 x 25 mm. Solid shaft 6mm. Drill hole: 9mm.

**EL11C**

Mini Switch with round lever, 2x on/on, nickel. 6 Pins.

**EL33C**

Double Toggle Switch, nickel. With additional contacts for «special occasions» (see schematics).

**WDE6**

**KU04N**

«Radiomatic-Line» Treble/Rhythm Disc, nickel. For Les Paul toggle switches. Nickel coloured plastic without imprint.

**KU05N**

«Radiomatic-Line» Scale Disc for Pots, nickel. Matches the Treble/Rhythm plate KU04N. Nickel coloured plastic without imprint.

**KU06B**

«Radiomatic-Line» Strip for F-Switches, black/gold. Decoration for F-style lever switch. Matches the pot scale KU05B.

**KU06N**

«Radiomatic-Line» Strip for F-Switches, nickel. Decoration for F-style lever switch. Matches the pot scale KU05B.

**SR112**

Lock Washer for 12mm, 20pcs.

**Standard Pots****CTS250**

Original CTS Push/Pull Pot, 250K log. Made in USA. Threads 9x10mmØ, housing 24mmØ, knurled shaft.

**CTS250P**

Original CTS Premium Push/Pull Pot, 250K log. Made in USA. Threads 9,35 x 9,35mmØ, housing 24mmØ, slotted ripple shaft.

**CTS500**

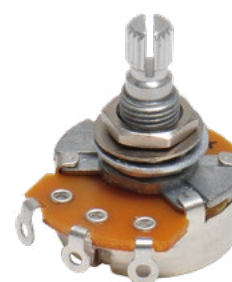

Original CTS Pot, 500K log. Made in USA. Threads 9x10mmØ, housing 24mmØ, knurled shaft.

**CTS500P**

Original CTS Premium Pot, 500K log. Made in USA. Threads 9,35 x 9,35mmØ, housing 24mmØ, slotted ripple shaft.

**E100M**

Mini Pot, heavy duty, 8mm, 100K log. Small size. Threads 10x8mmØ, housing 16.5mmØ, knurled shaft.

**E250L**

Deluxe Pot, heavy duty, 8mm, 250K lin. Made in Japan. Threads 10x8mmØ, housing 24mmØ, knurled shafts. Smooth-running, tin plated housing for easy soldering!

**E250M**

Mini Pot, heavy duty, 8mm, 250K log. Small size. Threads 10x8mmØ, housing 16.5mmØ, knurled shaft.

**E500L**

Deluxe Pot, heavy duty, 8mm, 500K lin. Made in Japan. Threads 10x8mmØ, housing 24mmØ, knurled shafts. Smooth-running, tin plated housing for easy soldering!

**E500M**

Mini Pot, heavy duty, 8mm, 500K log. Small size. Threads 10x8mmØ, housing 16.5mmØ, knurled shaft.

**EL1MG**

Mini Pot, 1M log. Small size. Threads 10x8mmØ, housing 16.5mmØ, knurled shaft.

**EL250**

Deluxe Pot, heavy duty, 8mm, 250K log. Threads 10x8mmØ, housing 24mmØ, knurled shafts. Smooth-running, tin plated housing for easy soldering!

**EL25K**

Mini Pot, heavy duty, 8mm, 25K log. Small size. Threads 10x8mmØ, housing 16.5mmØ, knurled shaft.

**EL500**

Deluxe Pot, heavy duty, 8mm, 500K log. Threads 10x8mmØ, housing 24mmØ, knurled shafts. Smooth-running, tin plated housing for easy soldering!

**EL500LH**

Original CTS Pot, 500K log, lefthand. Made in USA. Threads 9x10mmØ, housing 24mmØ, knurled shaft.

**EL56J**

Mini-Pot for Archtop Guitar, 250K log. Threads 6.5x8mmØ, housing 16.5mmØ, knurled shaft. extra small size. For mounting on «free-floating» pickguards of archtop guitars.

**US250**

CTS-Type Pot, 250K log. Brass threads 9x10mmØ, housing 24mmØ, knurled shaft. Tin-plated housings for easy soldering.

**US500**

CTS-Type Pot, 500K log. Brass threads 9x10mmØ, housing 24mmØ, knurled shaft. Tin-plated housings for easy soldering.

**US5XL**

CTS-Type Pot, extra long, 500K log. Brass threads 20x10mmØ, housing 24mmØ, knurled shaft. Tin-plated housings. For Les Pauls or other guitar with thick woodencp top.

**CP500**

Double Pot, 2x500K log. Concentric Shafts! Two separately adjustable pots in one housing. Threads 6.5x10mmØ, housing 24mmØ, knurled shaft. Incl. Knobs.

**E250P**

Mini Push/Pull Pot, 250K log Push/Pull. Small size. Threads 10x8mmØ, housing 16.5mmØ, knurled shaft. Switch on/on, double-pole double-throw, is activated by pulling.

**E250PP**

Mini Push/Push Pot, 250K log. Small size. Threads 10x9mmØ, housing 16.5mmØ, knurled shaft. Switch on/on, double-pole double-throw, is activated by repeated pushing.

**E500LP**

Mini Push/Pull Pot, extra long, 500K log. Small size. Threads 18x10mmØ, housing 16.5mmØ, knurled shaft. On/On Switch. For Les Paul and other guitars with a thick top.

**E500P**

Mini Push/Pull Pot, 500K log. Small size. Threads 10x8mmØ, housing 16.5mmØ, knurled shaft. Switch on/on, double-pole double-throw, is activated by pulling.

**E500PP**

Push/Push Pot, 500K lin Push/Push. Small size. Threads 10x9mmØ, housing 16.5mmØ, knurled shaft. Switch on/on, double-pole double-throw, is activated by repeated pushing.

**ELPAN250**

True Panorama Pot, 2x250K. Double pot with central raster. Thread 10x7mmØ, housing 17mmØ, straight shaft. For crossfading two pickups.

**BPF9V**

Snap In battery case for 9 Volt, black. Suitable for electric, acoustic & bass guitars. Holds a 9V block securely in place.

**EL10N**

Capacitor for Tone Control, 10nF, 10pcs. 10, 15, 22nF for guitar/22, 33r, 47nF for bass. The higher value, the duller sound. Choose smaller values for louder pickups like humbuckers.

**EL15F**

Capacitor for Tone Control, 15nF, 10pcs. 10, 15, 22nF for guitar/22, 33r, 47nF for bass. The higher value, the duller sound. Choose smaller values for louder pickups like humbuckers.

**EL22N**

Capacitor for Tone Control, 22nF, 10pcs. 10, 15, 22nF for guitar/22, 33r, 47nF for bass. The higher value, the duller sound. Choose smaller values for louder pickups like humbuckers.

**EL33N**

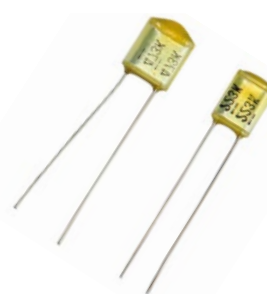

Capacitor for Tone Control, 33nF, 10pcs. 10, 15, 22nF for guitar/22, 33r, 47nF for bass. The higher value, the duller sound. Choose smaller values for louder pickups like humbuckers.

**EL47N**

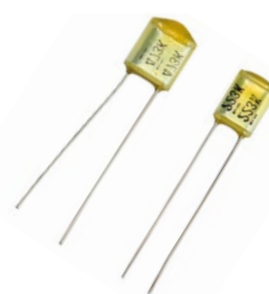

Capacitor for Tone Control, 47nF, 10pcs. 10, 15, 22nF for guitar/22, 33, 47nF for bass. The higher value, the duller sound. Choose smaller values for louder pickups like humbuckers.

**EL220**

Volume Capacitor 220 pF, 10 pcs. For guitar and bass. Soldered between the center & the input of the pot., it prevents the loss of treble when turning down the potentiometer.

**EL223**

"Oil Caps" Capacitor, 22nF, 10 pcs. Classic capacitor type, preferably used for volume control of electric guitars. Lowest tolerances, great look!

**EL473**

"Oil Caps" Capacitor, 47nF, 10 pcs. Classic 47nF capacitor type, e.g. for tone control in basses. Lowest tolerances, great look!

**EL855**

The Activator Preamp PA1. Increases the pickup volume (+15dB) without altering its sound! Adjustment by trim pot!

**EL900**

Professional Shielding Kit. A great set of different self adhesive Copper foils (sheet & stripes), some wire and solder to shield Pickguards, Pickups and electric cavities.

**EL902**

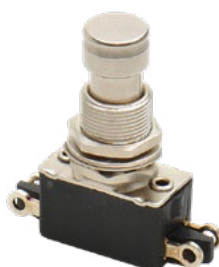

Copper Tape, adhesive, 12.7mm. 33m roll.

**EL906**

Copper Tape, adhesive, 6.4mm. 33m roll.

**EL903**

Aluminium Shielding Foil, adhesive. 1 sheet, 16x20cm

**ELF2P**

Foot Switch for pedal. 2-pole, 4 pins. Made in Italy, very good quality!

**ELF4P**

Foot Switch for pedal. 4-pole, 8 pins. Heavy-duty, for converting effect pedals to true bypass. Made in Italy, very good quality!

**Metal knobs****KB00B**

Dome Speed Knob/marked, black. Allen Screw. Features handy knurling & position marker. Fits 6mm pot shafts. 18.3mmØ, height: 18mm

**KB00C**

Dome Speed Knob/marked, chrome. Allen Screw. Features handy knurling & position marker. Fits 6mm pot shafts. 18.3mmØ, height: 18mm

FRETWIRE

ACCU-FRET® FRETWIRE

ACCU-FRET® FRETWIRE

Accu-fret® fretwire is manufactured from a nickel/silver alloy, sometimes called German silver. The percentage indicated on the chart refers to nickel content, most commonly 18%. “Hard” and “Soft” refer to how malleable the fretwire is: hard fretwire is more difficult to shape and is better suited to large radius or flat, classical fretboard; soft fretwire is easier to shape and is more suited to small radius fretboards. Dunlop Accu-fret fretwire is also available in brass and 18% nickel content in soft condition, and 12% nickel content in both hard and soft conditions, offering a tremendous array of fretwire for luthiers worldwide.

ACCU-FRET POUNDS

Fretwire is available coiled, in lengths, or by pound weight. (2 lbs. minimum)

ACCU-FRET 2 LB. BOX

Contains 2 lbs. of coiled fretwire in a pre-packed box. Please indicate the Fret No. when ordering.

(FRET NO.) C2 ACCU-FRET 2 LB. BOX

ACCU-FRET TUBES

For the repairman or facility preferring to work with lengths rather than precut material we offer 20 two foot (.609 meter) lengths, straightened.

672/(FRET NO.) ACCU-FRET® TUBE
PACKAGED IN A CARDBOARD STORAGE TUBE

ACCU-FRET SETS

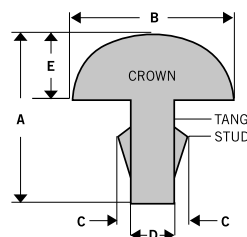

Contains 24 straightened and precut to 2-5/8" (66.67mm) frets. Easy to bend for curved fingerboards.

6S/(FRET NO.) ACCU-FRET® SET PACKAGED
IN A RECLOSABLE CLAMSHELL
